Author index of Volume 39

Abbod, M.F., *see* Linkens, D.A. 327–343
Abdelrahman, M., A methodology for development of configurable remote access measurement system 441–458
Adrot, O., *see* Maquin, D. 35– 45
Assimakopoulos, N.A., Workflow management with systems approach: anticipated and ad-hoc workflow for scientific applications 153–167
Barker, M., *see* Ye, N. 273–280
Bartran, D.S., Static and dynamic stresses of practical thermowells 133–142
Beckman, L., Expanding the applicability of ISA TR84.02 in the field 357–361
Bhandari, N., *see* Rollins, D.K. 29– 34
Bi, Q., *see* Wang, Q.-G. 79– 92
Blanchett, T.P., PID gain scheduling using fuzzy logic 317–325
Brombacher, A.C., *see* Knegtering, B. 363–369
Browne, A., *see* Linkens, D.A. 327–343
Cade, N., *see* Linkens, D.A. 327–343
Caliskan, F., Design of robust discrete control with desirable quadratic stability 401–406
Caliskan, F., Innovation sequence application to aircraft sensor fault detection: comparison of checking covariance matrix algorithms 47– 56
Camacho, O., Sliding mode control: an approach to regulate nonlinear chemical processes 205–218
Chan, H.L., Real-time flow control using neural networks 93–101
Dieste, M.I., Measurement and thermal modeling of high-Q piezoelectric resonators 371–377
Du, W., *see* Zhao, F. 143–151
Dubay, R., *see* Blanchett, T.P. 317–325
Estévez-Reyes, L., Process control reliability: the key to investing in your infrastructure 115–121
Ferdous, R., *see* Tan, K.K. 233–242
Frikken, D.R., *see* Bartran, D.S. 133–142
Gawronski, W., *see* Maneri, E. 243–264
Guo, X., *see* Wang, Q.-G. 407–418
Hajiyev, C.M., *see* Caliskan, F. 47– 56
Hashimoto, T., An adaptive I-PD controller based on frequency domain system identification 71– 78
Hassapis, G., Soft-testing of industrial control systems programmed in IEC 1131-3 languages 345–355
Hirayama, N., Fiber Bragg grating temperature sensor for practical use 169–173
Huang, B., *see* Wang, Q.-G. 407–418
Huang, S.N., *see* Tan, K.K. 57– 70
Huang, Y.J., Robust PID tuning strategy for uncertain plants based on the Kharitonov theorem 419–431
Huff, F.C., *see* Pal, J.K. 103–114
Ishida, Y., *see* Hashimoto, T. 71– 78
Jiang, X., *see* Tan, K.K. 219–232

Published by Elsevier Science Ltd.

Kember, G.C., *see* Blanchett, T.P. 317–325
Kim, W.W., *see* Koo, I.S. 309–316
Kinsey, J.M., *see* Bartran, D.S. 133–142
Knegtering, B., A method to prevent excessive numbers of Markov states in Markov models for quantitative safety and reliability assessment 363–369
Kolla, S., Identifying three-phase induction motor faults using artificial neural networks 433–439
Koo, I.S., The development of reactor coolant pump vibration monitoring and a diagnostic system in the nuclear power plant 309–316
Lee, T.H., *see* Tan, K.K. 219–232
Lee, T.H., *see* Tan, K.K. 233–242
Lee, T.H., *see* Tan, K.K. 57– 70
